PROFESSIONAL SUMMARY

Frontend developer with hands-on experience building and deploying full-stack web applications using React.js and Django REST Framework. Co-developed CivicAid, a live civic issue reporting platform featuring interactive heatmap visualization, REST API integration, and a team-based Git workflow. Seeking a junior frontend or internship role where I can contribute immediately and grow.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

APIs & Data: REST APIs, Django REST Framework (consumption), JSON

Tools: Git, GitHub, VS Code, Chrome DevTools, Vercel

Languages: Python (basic)

Concepts: Responsive Design, Component Architecture, React Hooks, DOM Manipulation

Soft Skills: Problem-solving & logical thinking, Team collaboration, Quick learner, Detail-oriented

PROJECTS

CivicAid — Civic Issue Reporting Platform [\[Live\]](#)

Live: civicaid-sooty.vercel.app GitHub: github.com/shova10

React.js · Django REST Framework · Leaflet.js · Git · Vercel

- Built the full frontend in React, consuming a Django REST API to let users report, view, and track civic issues — deployed live at civicaid-sooty.vercel.app.
- Developed an interactive heatmap using Leaflet.js to visualize issue density by location; debugged coordinate serialization mismatches between Django serializers and the frontend map renderer.
- Diagnosed and fixed Django URL routing conflicts and REST API call errors that were silently breaking data fetching — traced root causes across the full request-response cycle.
- Configured a dual-remote Git workflow so every push to frontend-dev simultaneously updates the team repo and the Vercel fork, enabling continuous deployment.

Personal Portfolio Website | [Portfolioo](#)

React.js · Lucide-React · CSS3 · JavaScript

- Architected a modular component system in React (Header, Hero, Skills, Projects) to ensure code reusability and easy maintenance.
- Implemented dynamic data rendering by centralizing site content in a configuration object, allowing for instant UI updates.
- Focused on UI/UX excellence with custom CSS animations, dark-themed aesthetic, and mobile-first responsiveness.
- Integrated Lucide-React icons and interactive elements to enhance visual storytelling of technical skills.

React Mini Projects Collection | [reactminiprojects](#)

React.js · CSS

- Created several mini projects: dark mode toggle, counter, quote generator, and more.
- Practiced conditional rendering, props/state flow, and user event handling; improved code reusability and UI logic.

To-Do List | (React & Vanilla JS) | [todolist](#)

React.js · JavaScript · HTML · CSS

- Developed both React and Vanilla JS versions; implemented task tracking, delete/edit features, and local storage persistence.
- Deepened understanding of virtual DOM vs. regular DOM differences.

Tic-Tac-Toe & Stopwatch | [shova10/Tic-Tac-Toe](#) · [shova10/Stopwatch](#)

JavaScript · HTML · CSS

- Built interactive logic games and tools using event-driven programming; strengthened understanding of core programming principles and browser behavior.

EDUCATION

Bachelors in information technology | Bhairahawa Multiple Campus | Bhairahawa, Nepal | *Expected 2026*

CERTIFICATE

- Responsive Web Design — freeCodeCamp
